PROFESSIONAL SUMMARY

Results-driven aspiring Software Engineer and Full-Stack Developer with hands-on experience in backend development, database management, and web application deployment across 3+ client projects. Proficient in Python, Java, SQL, MySQL, and WordPress, with a track record of building scalable RESTful APIs, optimizing database queries, and shipping production-ready solutions on schedule. Adept at working within cross-functional teams and communicating directly with clients to define scope and deliver measurable outcomes. Seeking a junior software engineering or full-stack development role to grow within a fast-paced, collaborative organization.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, SQL

Databases & Backend: MySQL, Microsoft SQL Server, SQL*Plus, RESTful API Development

Web Technologies: WordPress, HTML, CSS, PHP, Server-Side Logic, Third-Party Plugin Integration

Data & Analytics: Power BI, scikit-learn, pandas, NumPy, matplotlib, seaborn, EDA

Tools & Platforms: Git, GitHub, MS Office Suite, Canva

Soft Skills: Client Communication, Requirement Gathering, Team Collaboration, Data Entry & Management

WORK EXPERIENCE

Backend Developer & Data Entry Specialist

Freelance / BlownWeb | Mumbai, India | January 2025 – Present

- Developed and deployed WordPress websites with custom backend functionality for 2+ clients including Brand House Shoe Shop (brandhousemumbra.com), improving their online presence and operational efficiency.
- Contributed to team-based backend projects at BlownWeb (blownweb.com), handling server-side logic, database integration, and RESTful API development.
- Implemented and optimized database-driven features using MySQL and Microsoft SQL Server, maintaining data integrity across multiple production environments.
- Built and exposed RESTful APIs and integrated 5+ third-party plugins, ensuring seamless server-client communication for web applications.
- Managed end-to-end data entry workflows for backend systems, maintaining 100% accuracy across all submitted datasets with zero reported errors.
- Collaborated directly with clients to gather requirements, define project scope, and ship scalable, visually appealing solutions on agreed timelines.
- Produced 5+ client branding campaigns including promotional graphics, posters, and pamphlets using Canva, eliminating the need for external design outsourcing.

INTERNSHIPS

Data Science Intern

Imarticus Learning | Remote | June 2024 – August 2024

- Developed and evaluated 3+ machine learning models for classification and regression tasks using Python (scikit-learn, pandas, NumPy), achieving above-baseline accuracy on all test sets.
- Conducted exploratory data analysis (EDA) on datasets of 10,000+ records and produced 5+ visualizations using matplotlib and seaborn to surface actionable business insights for stakeholders.

Power BI Intern

SaiKet Systems | Remote | June 2024 – August 2024

- Planned and shipped 3 interactive Power BI dashboards visualizing business KPIs across sales and regional performance, reducing manual reporting time by consolidating data from multiple sources.
- Cleaned and restructured 4 raw datasets totalling 15,000+ records, transforming inconsistent inputs into structured, analysis-ready reports used by the internal analytics team.

Writing & Blogging Intern

Marpu Foundation | Remote | January 2023 – April 2023

- Authored 10+ blog articles and social awareness posts across digital platforms, contributing to a campaign that reached 500+ readers per month and improved audience engagement.
- Developed professional written communication skills with a focus on clarity, audience targeting, and tone consistency across long-form content.

EDUCATION

Bachelor of Science in Computer Science (Pursuing)

Mulund College of Commerce, Mumbai — University of Mumbai

August 2023 – May 2026 | 1st Year: 56.4% | 2nd Year: 65.5% | 3rd Year: Ongoing

Higher Secondary Certificate (HSC) — Science

Queen Mary College of Arts, Science & Commerce, Mumbai

Maharashtra State Board | 65.83% | February 2024

Secondary School Certificate (SSC)

Mumbra English High School, Mumbai

Maharashtra State Board | 73.40% | March 2022

CERTIFICATIONS

- Customer Relationship & Sales (CRS Course)
- Tally Essential & Tally Advanced (GST)
- Communication Skills — Levels 1, 2 & 3
- MS Office Course (Word, Excel, PowerPoint)
- Basic Computer Course

PROJECTS

Brand House Shoe Shop Website

 | WordPress, PHP, MySQL, Custom Backend

- Built and launched a fully functional e-commerce-style business website with custom backend logic, product pages, and contact form integration for a Mumbai-based retail client — shipped on schedule.

BlownWeb Team Web Applications

 | WordPress, MySQL, REST APIs, SQL Server

- Collaborated with a 3-person development team to build and maintain multiple web applications, handling backend architecture, database schema design, and API integrations across client deliverables.

Power BI Sales Analytics Dashboard

 | Power BI, Excel, DAX

- Constructed a multi-page interactive dashboard during the SaiKet Systems internship that visualized sales trends, regional KPIs, and product performance metrics — consolidated from 3+ data sources.

Machine Learning Classification Models

 | Python, scikit-learn, pandas, NumPy

- Trained and validated supervised ML models (logistic regression, decision trees, random forest) during the Imarticus Learning internship, achieving strong benchmark accuracy on held-out test sets.

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Fluent), Urdu (Native)

Availability: Immediate Joiner — Open to full-time, part-time, and internship roles

Work Mode: Open to on-site, remote, and hybrid opportunities in Mumbai, Thane, and Navi Mumbai
